

“Shaping Tomorrow: Agriculture, Sustainability & Innovation for a Resilient Future”

9:00 – 15:00 hrs | Thursday, 6th November 2025

Hyatt Regency | Pune

Background

India stands at a pivotal moment where agriculture and industry must jointly embrace innovation to build a resilient, low-carbon future. Rapid technological change, evolving market demands, and the urgency of climate action call for bold collaboration among farmers, MSMEs, corporates, policymakers, and innovators. This program aims to showcase cutting-edge solutions and actionable strategies that foster sustainable growth while strengthening economic competitiveness.

Objectives

- Highlight emerging technologies and models driving Agriculture 4.0.
- Share best practices for integrating sustainability into core business strategy.
- Facilitate partnerships across government, industry, start-ups, and the farming community.
- Identify policy levers and financing options to scale transformative solutions.

Key Focus Areas

Agriculture 4.0: From Farm to Future

- AI, IoT, and Data Analytics in Precision Agriculture
- Robotics, Drones, and Automation in Farming
- Digital Marketplaces, Agri-FinTech, and Farmer Financial Inclusion
- Innovations in Post-Harvest, Logistics, and Cold-Chain Systems
- Farmer-MSME-Corporate Partnerships for Inclusive Growth
- Policy and Governance Mechanisms for Smart Agribusiness

Sustainability as a Business Imperative

- ESG (Environmental, Social & Governance) Adoption in Corporates and MSMEs
- Circular Economy Models in Agri and Industrial Ecosystems
- Renewable Energy Integration in Agriculture & Manufacturing
- Water-Efficiency, Waste Management & Sustainable Resource Use
- India's Roadmap to Net-Zero: Sectoral Pathways and Policy Interventions
- Global Case Studies and Learnings for Indian Context

Leadership for a Resilient Future

- Leadership Models for Driving Sustainability & Innovation
- Transformational Leadership in Agriculture and Rural Development
- Building Cross-Sector Coalitions: Academia-Industry-Policy-Community
- Women Leadership in Agri-Innovation and Sustainability
- Leadership in Crisis Management: Lessons from Climate and Market Disruptions
- Future-Ready Leadership: Skills, Competencies, and Ethical Imperatives

Sustainable Development & Inclusive Growth

- Linking Sustainable Development Goals (SDGs) to Agri-Business Models
- Social Innovation and Community-Led Sustainable Development
- Sustainable Food Systems and Nutrition Security
- Financing Models for Sustainable Development (Green Bonds, Impact Investing)
- Role of Start-Ups and Social Enterprises in SDG Acceleration
- Policy Frameworks for Equitable and Inclusive Growth

Confederation of Indian Industry

AGRINEXT

SUMMIT

Confab360 Degree
Transforming Professionals
(An ISO 9001:2015 Certified Company)

Audience

Top Management (MD/CEO/Director/COO) | Head - Manufacturing & Plant Heads
Managers, Supervisors & Engineers | CIO, Head of IT | Farmer Cooperatives | Head of R&D |
Safety Professional | Senior & Middle-level Management | Logistics & Supply Chain Heads |
Head - Purchase Admin & Facility Heads | Head - Digital Transformation

Professionals from Industries can also join:

Automobile & Automobile Components | Electrical & Electronics, Food Processing,
Automation, Building Automation & Information Technology | Capital Goods and Chemicals |
Machinery & Equipment and Pharmaceuticals Pharmaceutical C | Pharmaceutical Companies |
Metallic, Mining & NonMetallic, Iron and Steel | Logistics & Supply Chain Heads |
Power & Energy and Rubber, Plastic & Leather | Start-Up Companies |
Aerospace & Defence Bank & Insurance Companies | Consumer Durable & Home Appliances

Proposed Outcomes

A set of actionable recommendations for policymakers and industry leaders.
Cross-sector collaborations and investment opportunities.
A knowledge compendium capturing case studies and best practices.
